EDUCATION

Bachelor of Technology
National institute of technology WARANGAL

07/2018 - Present   *Warangal, Telangana*
Electronics and Communication Engineering
- Current CGPA - 6.52

PERSONAL PROJECTS

Dorami (07/2020 - Present)
- Dorami is a non-AI Virtual Assistant coded in python. It does some of our work like playing our favourite music folder, sending emails, searching query on Wikipedia through voice, opening our favourite websites
- url - https://github.com/himanshu27tasveer/Dorami

Portfolio website (03/2020 - 04/2020)
- Made a portfolio website to show my Photographs. These photos are captured by me as a hobby. This is a static website hosted on GitHub
- url - https://himanshu27tasveer.github.io

Booker-slum (05/2020)
- Book review website made with flask framework and Postgresql. And deployed on heroku using gunicorn web server. Anyone can search here books from its 5000 books in its database which is also on heroku after user is registered and logged in
- url - https://booke-slum.herokuapp.com

BsToDoLI (06/2020 - 06/2020)
- A react based todo list app which saves list on local storage of the browser. It was deployed on heroku with express as a server
- url - https://bstodoli.herokuapp.com
